Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 71,82 and 83 are rejected under 35 U.S.C. 102(b) as being anticipated by Sawaki 5648874.

Sawaki meets the limitations of these claims as discussed previously. Regarding the new limitation of a holding frame, note that this feature is met by Sawaki's lens supporting structure shown in figs. 2 or 3 (the structure which supports lens plates 33,34,etc.) or the lens supporting structure shown in figs. 17 or 18 (the structure which supports the lens array). The phrase "for centering the effective area in the holding frame" is a statement of intended use which does not further limit the instant invention in a structural manner. Since the alignment mark (marker) shown by Sawaki is capable of various alignment uses, Sawaki anticipates the claims.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

4. Claims 73-75, 77-81 and 84-88 are rejected under 35 U.S.C. 103(a) as being unpatentable over Sawaki.

The limitations of these claims are met by or obvious over Sawaki as discussed previously. Regarding the new limitation of a holding frame, note that this feature is met by Sawaki's lens supporting structure shown in figs. 2 or 3 (the structure which supports lens plates 33, 34, etc.) or the lens supporting structure shown in figs. 17 or 18 (the structure which supports the lens array). The phrase "for centering the effective area in the holding frame" is a statement of intended use which does not further limit the instant invention in a structural manner. Since the alignment mark (marker) shown by Sawaki is capable of various alignment uses, Sawaki anticipates the limitations of the claims.

Response to Arguments

5. Applicant's arguments regarding the claims as amended have been fully considered but they are not persuasive. As discussed above, Sawaki meets the limitations directed to the holding frame and alignment mark.

Conclusion

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
